

2 COMPOSITION - Information on ingredients

INGREDIENT NAME (ctd.)	CONCENTRATION PERCENT BY WEIGHT
------------------------	------------------------------------

Tris-hydroxymethyl-aminomethane (ctd.)

Risk Code: R36-37-38

R36: irritating to eyes

R37: irritating to respiratory system

R38: irritating to skin

Safety Code: S 26 -36

Tris-hydroxymethyl-aminomethane hydrochloride

13.3

CAS No.: 1185-53-1

EINECS No. : 214-684-5

Hazard Classification: Xi (as raw material)

Risk Code: R36-37-38

R36: irritating to eyes

R37: irritating to respiratory system

R38: irritating to skin

Safety Code: S 26 -36

-Bovine F X:

Assy hazard classification:
(24/25-29-36)

Bovine Factor X

2 U/vial

Bovine Albumin

0.2

Tris-hydroxymethyl-aminomethane

0.1

CAS No.: 77-86-1

EINECS No. : 201-064-4

Hazard Classification: Xi (as raw material)

Risk Code: R36-37-38

R36: irritating to eyes

R37: irritating to respiratory system

R38: irritating to skin

Safety Code: S 26 -36

Tris-hydroxymethyl-aminomethane hydrochloride

0.64

CAS No.: 1185-53-1

EINECS No. : 214-684-5

Hazard Classification: Xi (as raw material)

Risk Code: R36-37-38

R36: irritating to eyes

R37: irritating to respiratory system

R38: irritating to skin

Safety Code: S 26 -36

2 COMPOSITION - Information on ingredients

INGREDIENT NAME (ctd.)	CONCENTRATION PERCENT BY WEIGHT
------------------------	------------------------------------

-Calcium Chloride (CaCl₂):

Assy hazard classification:
(24/25-29-36)

Calcium Chloride Dihydrate

0.58

CAS No.: 10035-04-8

EINECS No.: 233-140-8

Hazard Classification: Xi (as raw material)

Risk Code: R36

R36: irritating to eyes.

Safety Code: S 22-24

-Thromboplastin:

Assy hazard classification:
(24/25-29-36)

Human Placenta Thromboplastin

3. HAZARD IDENTIFICATION

POTENTIAL HEALTH EFFECTS

EYES

Substrate S-2765 / Thromboplastin: may cause irritation.

Bovine Serum Albumin / Buffer / Factor X / CaCl₂ /: avoid contact, may cause irritation

SKIN

Substrate S-2765: may be absorbed through the skin with possible systemic effects.

Bovine Serum Albumin / Buffer / Factor X / CaCl₂ : avoid contact, may cause irritation.

Thromboplastin: may cause irritation.

INGESTION

Substrate S-2765: may be harmful if swallowed. may cause blood damage with blueness of the lips (cyanosis), strong headache.

Bovine Serum Albumin / Buffer / Factor X / CaCl₂: may be harmful if swallowed.

Thromboplastin: none known.

INHALATION

Substrate S-2765: may cause blood damage with blueness of the lips (cyanosis), strong headache, nausea, coughing.

Bovine Serum Albumin / Buffer / Factor X / CaCl₂: may cause irritation to the mucous membranes and upper respiratory tract.

Thromboplastin: none known.

4. FIRST AID MEASURES

EYES

Substrate S-2765 / Bovine Serum Albumin / Buffer / Factor X / CaCl₂ / Thromboplastin:

in case of eye contact, flush eyes immediately with plenty of water for at least 15 minutes. Get medical attention if irritation develops.

SKIN

Substrate S-2765 / Bovine Serum Albumin / Buffer / Factor X / CaCl₂ / Thromboplastin:

wash well with soap and water. Remove contaminated clothing and launder before use. If irritation persists, get medical attention.

INGESTION

Substrate S-2765: give a glass of water. If necessary get a medical attention or contact the local Poison Control Center.

Bovine Serum Albumin / Buffer / Factor X / CaCl₂ / Thromboplastin:

give a glass of water or milk to drink. Get medical attention or contact the local Poison Control Center.

INHALATION

Substrate S-2765 / Bovine Serum Albumin / Buffer / Factor X / CaCl₂ / Thromboplastin:

remove the individual to fresh air. If breathing is difficult give oxygen, get medical attention.

5. FIRE FIGHTING MEASURES

FLAMMABLE PROPERTIES

FLASH POINT

LOWER EXPLOSIVE LIMIT (%): N/A

UPPER EXPLOSIVE LIMIT (%): N/A

FIRE AND EXPLOSION HAZARDS:

None known.

EXTINGUISHING MEDIA

Use any extinguishing agent which is suitable for the surrounding fire.

FIRE FIGHTING INSTRUCTIONS

Wear self-contained breathing apparatus and protective clothing that is appropriate for fighting a typical fire involving chemical materials.

6. ACCIDENTAL RELEASE MEASURES .

Contain spill by placing a suitable absorbent material around the edges of the spill and work inward. Carefully scoop up into appropriate waste container for disposal.

7. HANDLING AND STORAGE

HANDLING AND STORAGE PRECAUTIONS

The sealed reagents are stable until the expiration dates shown on the labels when stored at 2-8 °C.

Thromboplastin (Human origin)

CAUTION: All blood products should be treated as potentially infectious.

Source material from which this product was derived was found negative when tested in accordance with FDA required tests.

No known test method can offer assurance that products derived from human blood will not transmit infectious agents.

Handle as if capable of transmitting infectious agents.

Bovine Serum Albumin / Bovine FX

Animal serum test was tested for the presence of pathologies and found negative. Animal serum was treated during the production processes to inactive viruses. However these reagents should be handled with care as potentially infectious biological sample. Wear personal protective equipment.

WORK/HYGIENIC PRACTICES

Wash hands with soap and water after use.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls

None normally required.

Eye/Face protection

Safety glasses or splash goggles are recommended.

Skin Protection

Wear rubber or plastic gloves and other protective clothing (lab. coat) as required to prevent skin contact.

Respiratory Protection

None normally required with adequate ventilation.

Other/General Protection

None normally required.

9. PHYSICAL AND CHEMICAL PROPERTIES

	<u>Substrate S-2765</u>	<u>Bovine Serum Albumin</u>	<u>Buffer</u>
Appearance:	lyophilized powder	liquid	liquid
Colour:	white	yellowish	colourless
Odour:	odourless	odourless	odourless
Density:	N/A	not available	not available
pH:	not available	not available	7.3-7.4 at 20-25°C

	<u>Factor X</u>	<u>Calcium Chloride</u>	<u>Thromboplastin</u>
Appearance:	lyophilized powder	liquid	lyophilized powder
Colour:	white	colourless	white
Odour:	odourless	odourless	odourless
Density:	N/A	not available	N/A
pH:	not available	not available	not available

BASIC PHYSICAL PROPERTIES

VAPOUR PRESSURE: not determined

SPECIFIC GRAVITY: not determined

SOLUBILITY (H₂O): not determined

10. STABILITY AND REACTIVITY

STABILITY: stable

CONDITIONS TO ALLOW (STABILITY)

See Insert Sheet.

INCOMPATIBLE MATERIALS

-pNA: strong oxidizing agents, strong acids and bases.

-Tris-hydroxymethyl-aminomethane: copper, brass, aluminum and oxidizing materials.

HAZARDOUS DECOMPOSITION PRODUCTS

-Substrate S-2765 / Buffer / Bovine FX: harmful fumes of oxides of carbon and nitrogen may be formed during thermal decomposition.

-Bovine Serum Albumin / Calcium Chloride /Thromboplastin: none known.

HAZARDOUS POLYMERIZATION: will not occur

11. TOXICOLOGICAL INFORMATION

MISCELLANEOUS TOXICOLOGICAL INFORMATION

-Tris-hydroxymethyl-aminomethane: orl-rat LD50 5900 mg/kg . No toxic effected noted. (NIOSH).

-pNA: orl-rat LD50 750 mg/Kg; TLV-TWA 3.0 mg/m³; mutagenic data (NIOSH).

Peptide: ivn-mouse LD50 appr. 100mg/kg.

pNA is chemically coupled to the peptide molecule but is cleaved by proteolytic enzyme e.g. trypsin in digestive tract.

-Calcium Chloride: ipr-mus LD50 20500 mg/Kg; orl-rat LD50 1000 mg/Kg (anhydrous form); mutagenic and tumorogenic data (anhydrous form) (NIOSH).

The health effects noted above are based on the extrapolation of data on the pure product ingredients. To the best of our knowledge, no health effects have been identified for the product mixture under normal conditions of use, although the health effects of the product have not been thoroughly investigated.

12. ECOLOGICAL INFORMATION

OTHER ENVIRONMENTAL INFORMATION

pNA: Daphnia Magna : 48 Hr-LC50 = 20-30 ppm, slightly toxic.
Calcium Chloride dry: effect toxic to fish (5100 mg/L) and crustacean (990mg/L).

Use in accordance with good laboratory practice. Do not waste in the environment.

13. DISPOSAL CONSIDERATIONS

Based on EEC Directive No. 75/442 and 78/319 and following modifications, the product waste is classified as toxic and harmful (pNA).

Dispose of in accordance with local regulations.

Used waste products, surplus products or spillage products shall be disposed of in accordance with national and local laws. It is up to the user to classify the waste correctly prior to disposal.

14. TRANSPORT INFORMATION

None.

15. REGULATORY INFORMATION

This product is classified and labelled in accordance with EEC Directive 88/379 and EEC Directive 91/155 and following modifications. The health hazard classification has been determined based on composition and hazard data of each ingredient.

Physical and health hazard information on the reagent mixture has not been determined.

Any physical and health hazard information noted is based on a) evaluation of data of the pure ingredient and b) concentration of each ingredient.

Kit Hazard Classification

- EEC Symbol: **Xn (Harmful)**
- Risk Code: **R 22**: harmful if swallowed.
- Safety Code: **S24/25 - 29 - 36**
 - S24/25**: avoid contact with skin and eyes.
 - S29**: do not empty into drains.
 - S36**: wear suitable protective clothing.

16. OTHER INFORMATION

REFERENCE DOCUMENTATION

Primary references used in the preparation of this document:

1. Product Specification.
2. Product Insert.

NOTE

The information supplied in this Safety Data Sheet represents the data and best information available at the date of preparation. It is provided with the aim of allowing proper and safe use, storage, transport and disposal of the product. It is not to be considered as a warranty or specification of product quality. It is related to the materials specifically indicated and does not apply if these are used in combination with other materials or during processes not specifically indicated in the text of this Safety Data Sheet.
